Edmonton Bulletin

Alberta's Oldest Newspaper Founded in 1880 by Hon. Frank Oliver Published every afternoon except Sunday by the Afberta Free Press, Limited, at the Bulletin Building, 9841-9843 Jasper Avenue East, Lidmonton, Alberta, Canada,

CHARLES E. CAMPBELL. Publisher.

IF IT WILL HELP ALBERTA THE BULLETIN IS FOR IT

THURSDAY, SEPTEMBER 29, 1927

So of the selection cannot an own in the Man-Bolanicas interests are already carry-field bainess in the standing intostrail of commercial establishments, which be-eaks the strongest possible confidence in future. Large trading concerns are ening new wholesale and distributing prespectly, stimulated by the ripening prespectly, stimulated by the ripening the greatest even in alberta's history. The Husson's Bay Company are willing durations to evolperate with the city in a vivolegance of the company's property, that project is contingent upon the city detraking to do a definite amount of subtrustive street improvement. To fall to see with that offer would be a cardinal state.

Modern Women SAYS STATES WILL BE DRY: Lose Hubbies **DECRIES BEER**

THIS is a message of Hope—an assurance of better health—for the weak, ill-nourished person who stands in peril of Tuberculosis.

Are you willing for your own sake, or the sake of someone very dear to you, to follow these simple suggestions?

To Avoid Tuberculosis

Recognize that Tuberculosis is preventable and curable, if combative measures are taken early. That patent medicines and "quick cures" not only do no good but actually delay the real cure.

That a qualified physician can quickly detect Tuberculosis and prescribe treatment which may check the disease at the very start.

That Tuberculosis of the lungs is in reality a grim battle between hordes of germs and the protecting hosts of living cells which form the lining of the lungs. A health person can win the contest—in fact he is winning it every hour.

That you can strengthen the system to resist the disease if you live as much as possible in the sun-

shine, breathe fresh air, avoid overwork and eat nourishing food.

To Cure Tuberculosis

If you have a chronic cough with a failing appe-tite and loss of weight and notice symptoms which you do not understand, go at once to your family physician, and get his opinion. At this stage of the disease the greatest danger is the danger of delay.

Change of climate is not saways necessary. In the hospitals for treating Tuberculosis hundreds of people are cured each year or have their lossing greatly prolonged. They receive proper medical treatment, plenty of rest in the variety are and learn how to build up their system to combat the disease. For the same attention, you will have to pay no more than you can afford.

Don't leave your health to chance. Let a doctor examine your physical condition at least once a year. Better health, longer life, greater happiness, a more whole-souled joy in living will be your rewards.

Edmonton people were astounded at the unheard of prices we marked on these slightly smoke and water damaged furs. But--old prices have been swept by the boards---costs have been forgotten--- in the drastic reductions we have made for the final days of this great sale. Prepare for colder weather now--never again will you be able to buy such coats as these at such ridiculous prices.
